## PRESS RELEASE

7<sup>th</sup> March 2007

---

### Omnibus Strengthens Management Team.

Jeremy Howat has joined transport software developers Omnibus as Sales & Marketing Manager. Formerly Business Development Manager for demand responsive software supplier Logical Transport, Jeremy joins with experience of developing sales strategy and processes. This experience will add a further dimension to Omnibus' industry experienced team.

Managing Director, Peter Crichton said, "We have spent time growing a team from the bus and transport industries. Jeremy will help focus this experience on what really matters – attracting new customers"

---

### About Omnibus

Omnibus Systems are the U.K.'s leading supplier of timetable and scheduling software to the passenger transport industry; our programs are now installed at over 120 operational sites.

Omnibus Systems provide the most versatile timetable and scheduling software currently available. The systems are proven in use, with more than ten years experience providing transport operators and local authorities with the systems that meet their needs.
