

PRODUCT RANGE

Our extensive range of software, designed for public transport operators, Local Authorities or executives, encompass timetabling, scheduling and operational requirements.

The core products available are robust and proven in use all over the world. These are augmented by more specialised modules which enable users to get the most value from the Omnibus solutions

Omnibus software exports to:

TransXChange
 ATCO-CIF (Traveline)
 TfI CAESAR
 NaPTAN v.2
 Realtime systems
 Ticketing systems

and more...
